April 1, 2021

Honorable Mayor, Members of the City Council, and Residents
City of Mounds View, Minnesota

State law requires that all municipalities complete a set of financial statements presented in conformity with accounting principles generally accepted in the United States of America, and these statements are to be audited by a firm of certified public accountants or the Office of the State Auditor. Pursuant to that requirement, we hereby submit the comprehensive annual financial report of the City of Mounds View, Minnesota (the City) for the fiscal year ended December 31, 2020.

This report consists of management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the City's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City's financial statements have been audited by Malloy, Montague, Karnowski, Radosevich & Co., P.A. (MMKR), a firm of certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ended December 31, 2020 are free of material misstatement.

The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the financial statements for the year ended December 31, 2020 are fairly presented in conformity with accounting principles generally accepted in the United States of America. The independent auditor's report is presented as the first component of the financial section of this report.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditor.

Profile of the City

The City is located in the northwest corner of Ramsey County approximately eight miles north of the city of St. Paul. The City encompasses an area of approximately 4.25 square miles. Population was 10,599 in 1970, 12,593 in 1980, 12,541 in 1990, 12,738 in 2000, 12,155 in 2010, and 13,513 in 2020. The City is empowered to levy a property tax on both real and personal property located within its boundaries.

The City has been a municipal corporation since 1958. The City operates under a Home Rule Charter that was adopted in 1979. The Charter was most recently amended on May 12, 2013. The form of government established by the Charter is the Mayor/City Council plan. There is a Mayor and four City Council members, all of whom are elected at large.

The City provides a full range of services, including police and fire protection, planning and zoning, streets and roads, parks and recreation, and a community center. Certain utilities are provided through Water, Sanitary Sewer, Storm Water, and Street Light Funds that operate as departments of the City. The Economic Development Authority of the City is treated as a blended component unit of the City and is reported as a Special Revenue Fund. Fire protection is provided through the joint Spring Lake Park – Blaine – Mounds View Fire Department (the Fire Department). Only the City's contribution to the Fire Department is reported in these financial statements.

The annual operating budget is the core of the City's financial planning. All departments and all funds are required to submit budget requests. The City adopts annual budgets for the General Fund and Special Revenue Funds listed in the table of contents. The state of Minnesota requires local governments to meet certain processes and deadlines for consideration, public notification, and adoption of property tax levies. These requirements form the basis of the City's entire budget process.

Additional details on the profile of the City can be found in Note 1 of the basic financial statements.

Local Economic Condition and Outlook

The City is over 90% developed with the majority of land having been developed as single-family housing. Since the City is primarily residential, many residents are employed in other parts of the metropolitan area. Interstate Highway 35W, U.S. Highway 10, and Mounds View Boulevard traverse the City, providing easy access routes for commuters and commercial traffic. Mounds View Boulevard was formerly County Road 10 which was formerly U.S. Highway 10 until a new freeway segment was constructed and took the name.

The City of Mounds View saw minimal residential development in 2020. Two permits were issued for new residential dwelling units in 2020. This compares with twelve residential and 128 multi-family units in 2019. The City issued one new commercial building permit in 2020 compared with none in 2019. The City issued a total of 401 building permits in 2020 compared with 423 in 2019 at a total constructed value of \$9,993,318 compared with \$20,333,800 in 2019. The City anticipates modest residential and one commercial development in 2021.

The U.S. Federal government, the State of Minnesota, County, and Municipal governments have been working together to address the coronavirus pandemic in an effort to flatten the demand on the healthcare system. This will continue to have an unknown negative impact on the economy. The state began the legislative session with a current surplus and a budget reserve at the statutory level. It is unknown at this time if the City will see a reduction in anticipated aid payments in the next state budget cycle. The City prepared the 2021 budget at 50% of certified state aid and thus any reduction will not have as adverse an impact on the City.

Long-term Financial Planning

The City maintains a bond rating of AA, which was confirmed as part of financing upgrades to the water treatment processes and facilities, this continues to reflect the City's favorable financial position. This would provide a lower interest rate should the City desire to use long-term borrowing for future capital and infrastructure improvements. The greatest infrastructure need facing the City is the condition of its utility infrastructure. The City is currently making significant improvements to the water treatment system beginning in 2020 and running through 2022. Also, the City is preparing to replace the 25 year old water meters in 2021. The City issued bonds to finance the improvements. The City completed a ten year street improvement program in 2017 that rehabilitated 25.9 miles of streets. The City continues reconstruction of streets that were not part of the ten year street improvement program with completion of Quincy Street in 2020. There will be additional streets reconstructed in 2021 and beyond.

Future street reconstruction will be financed by a combination of different revenue sources, franchise taxes, Municipal State Aid, and a general property tax levy will serve as the main sources. Making street reconstruction affordable for citizens was a goal of the City. The City is developing a long-term street maintenance program to finance future street maintenance.

State funding to cities has stabilized with the state reporting a surplus for the current biennium. The City Council and City's staff will need to continue to make difficult choices in determining the manner to finance services provided to citizens.

The City continues to work on redevelopment opportunities in other parts of the City that will enhance the tax base, increase job opportunities, and provide amenities desired by the residents.

Relevant Financial Policies

In past years, the state has reduced aid to local governments during economic down turns. The City of Mounds View's policy is to not anticipate full payment of future aid and will construct future budgets with reduced amounts of aid payments.

Major Initiatives

The major economic development initiative continues to be the upgrading of Mounds View Boulevard. The objective is to improve traffic flow and safety on the major corridor through the City's main commercial district. This is a multi-year project and achieving this should trigger new interest in development and redevelopment of commercial properties along the corridor. The City will rehabilitate the road surfaces and improve storm water structures on Pleasant View Road and Spring Lake Road in 2022 and 2023. The City will also undertake additional sewer lining and a sealcoat project.

The City is currently working to develop the Skyline parcels in the southeast part of the City. The City is working with a developer on a housing development known as Long Lake Woods that would add 12 to 14 buildable lots.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its comprehensive annual financial report for the fiscal year ended December 31, 2019. In order to be awarded a Certificate of Achievement, the City had to publish an easily readable and efficiently organized comprehensive annual financial report that satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the dedicated services of the finance and administrative staff of the City. I would like to express my appreciation to all staff members who assisted in the preparation of this report. Credit must also be given to the Mayor and City Council who have supported changes to improve the financial processes and position of the City.

Respectfully submitted,

Nyle Zikmund
City Administrator

INDEPENDENT AUDITOR'S REPORT

To the City Council and Management
City of Mounds View, Minnesota

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Mounds View, Minnesota (the City) as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

(continued)

OPINIONS

In our opinion, the financial statements referred to on the previous page present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of December 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof, and the budgetary comparison for the General Fund and major special revenue funds for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

OTHER MATTERS

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information (RSI), as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the RSI in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual fund statements and schedules, and statistical section, as listed in the table of contents, are presented for purposes of additional analysis and are not required parts of the basic financial statements.

The combining and individual fund statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

(continued)

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, we have also issued our report dated April 1, 2021, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Malloy, Montague, Karnowski, Radosevich & Co., P.A.

Minneapolis, Minnesota

CITY OF MOUNDS VIEW

Management's Discussion and Analysis Year Ended December 31, 2020

As management of the City of Mounds View, Minnesota (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2020. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the beginning of this report.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$62,401,607 (*net position*). Of this amount, \$17,117,584 (*unrestricted net position*) may be used to meet the government's ongoing obligations to citizens and creditors.
- The government's total net position increased by \$1,195,576. Governmental activities increased total net position by \$1,010,959 while business-type activities increased total net position by \$184,617.
- As of the close of the current fiscal year, the City's Governmental Funds reported combined ending fund balances of \$18,589,243. The City reported a net increase of \$573,321 in comparison with the prior year. Approximately 16.5% of total fund balance or \$3,060,558 is restricted for debt service, tax increment purposes, economic development, parks and recreation, communications, public safety, and conservation. Approximately 58.4% or \$10,866,253 is assigned for future expenditures and 25.1% or \$4,662,432 is unassigned, which is available for spending at the government's discretion.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$4,662,432, or 67.1% of total General Fund expenditures.
- The City's total long-term debt (excluding bond premium, compensated absences, and net pension liability) increased by \$4,873,242 or 68.8% during the current fiscal year. The increase was the result of issuing \$5,830,000 of G.O. Water Revenue bonds.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements – The government-wide financial statements are designed to provide readers with a broad overview of the City’s finances, in a manner similar to a private sector business.

The *Statement of Net Position* presents financial information on all of the City’s assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *Statement of Activities* presents information showing how the government’s net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned, but unused, vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, streets and highways, sanitation, culture and recreation, and economic development. The business-type activities of the City include water, sanitary sewer, storm water, and street light.

The government-wide financial statements include only the City itself. The Economic Development Authority, although legally separate, functions for all practical purposes as a department of the City, and therefore has been included as an integral part of the primary government. The government-wide financial statements can be found on pages 15-16.

Fund Financial Statements – A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: Governmental Funds and Proprietary Funds.

Governmental Funds – Governmental Funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the governmental-wide financial statements, Governmental Fund financial statements focus on the near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government’s near-term financing requirements.

Because the focus of Governmental Funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for Governmental Funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government’s near-term financing decisions. The Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between Governmental Funds and governmental activities.

The City maintains several Individual Governmental Funds. Information is presented separately in the Governmental Fund balance sheet and statement of revenues, expenditures, and changes in fund balances for the General Fund; the Economic Development Authority Special Revenue Fund, the TIF District No. 5 Special Revenue Fund, the Vehicle and Equipment Capital Projects Fund, and the Street Improvement Capital Projects Fund, which all are considered to be Major Funds. Data from the other Governmental Funds are combined into a single, aggregated presentation. Combining and individual fund data for each of these Nonmajor Governmental funds can be found on pages 60-76.

The City adopts an annual appropriated budget for its General Fund and special revenue funds. Budgetary comparisons for the General and Major Special Revenue Funds are included in the basic financial statements. Budgetary comparisons for Nonmajor Special Revenue Funds are provided elsewhere in the report to demonstrate compliance with these budgets. The basic Governmental Fund financial statements can be found on pages 17-24.

Proprietary Funds – The City maintains only one type of Proprietary Fund. Enterprise Funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses Enterprise Funds to account for its water, sanitary sewer, storm water, and street light operations.

Proprietary Funds provide the same type of information as the government-wide financial statements, only in more detail. The City reports the water, sanitary sewer, and storm water funds as major funds. The street light fund is a nonmajor fund but is reported with the major funds.

The basic Proprietary Fund financial statements can be found on pages 25-27.

Notes to Basic Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to basic financial statements are included as a component of the basic financial statements and can be found on pages 28-54.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows exceeded liabilities and deferred inflows by \$62,401,607 at the close of the most recent fiscal year.

A significant portion of the City's net position (67.8%) reflects its net investment in capital assets (e.g. land, land improvements, construction in progress, buildings, infrastructure, and equipment); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investments in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot typically be used to liquidate these liabilities.

The City's Net Position

	Governmental Activities		Business-Type Activities		Total	
	2020	2019	2020	2019	2020	2019
Current and other assets	\$ 19,345,840	\$ 18,867,577	\$ 9,922,155	\$ 6,071,399	\$ 29,267,995	\$ 24,938,976
Capital assets	41,919,911	42,553,236	9,291,213	6,595,530	51,211,124	49,148,766

Deferred outflows of resources	1,370,371	1,989,561	60,665	61,202	1,431,036	2,050,763
Total assets & def'd outflows	\$ 62,636,122	\$ 63,410,374	\$ 19,274,033	\$ 12,728,131	\$ 81,910,155	\$ 76,138,505
Long-term liabilities						
outstanding	\$ 10,050,090	\$ 10,485,794	\$ 6,733,710	\$ 591,180	\$ 16,783,800	\$ 11,076,974
Other liabilities	678,883	762,933	394,494	105,521	1,073,377	868,454
Total liabilities	10,728,973	11,248,727	7,128,204	696,701	17,857,177	11,945,428
Deferred inflows of resources	1,597,920	2,863,377	53,451	123,669	1,651,371	2,987,046
Total liabilities & def'd inflows	\$ 12,326,893	\$ 14,112,104	\$ 7,181,655	\$ 820,370	\$ 19,508,548	\$ 14,932,474
Net position						
Net investment in capital assets	\$ 35,788,785	\$ 35,524,808	\$ 6,497,482	\$ 6,595,530	\$ 42,286,267	\$ 42,120,338
Restricted	2,997,756	2,828,405	–	–	2,997,756	2,828,405
Unrestricted	11,522,688	10,945,057	5,594,896	5,312,231	17,117,584	16,257,288
Total net position	\$ 50,309,229	\$ 49,298,270	\$ 12,092,378	\$ 11,907,761	\$ 62,401,607	\$ 61,206,031

An additional portion of the City's net position, 4.8%, represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position \$17,117,584, may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

Total net position increased by \$1,195,576 during the current year. Significant factors contributing to the increase in net position were increased intergovernmental revenues and utility rates.

Governmental Activities – Governmental activities increased the City's net position by \$1,010,959. Key elements of this increase are seen in the table on the following page.

- Charges for Services decreased by \$1,228,210 from the prior year.
- Operating Grants and Contributions increased by \$1,037,573 over the prior year.
- Property taxes increased by \$336,544 over the prior year.
- Public safety expense decreased by \$124,773 from the prior year.
- Streets and highways expense decreased by \$276,983 from the prior year.
- Culture and recreation expense decreased by \$124,288 from the prior year.

Expenses and Program Revenues – Governmental Activities

Revenues by Source – Governmental Activities

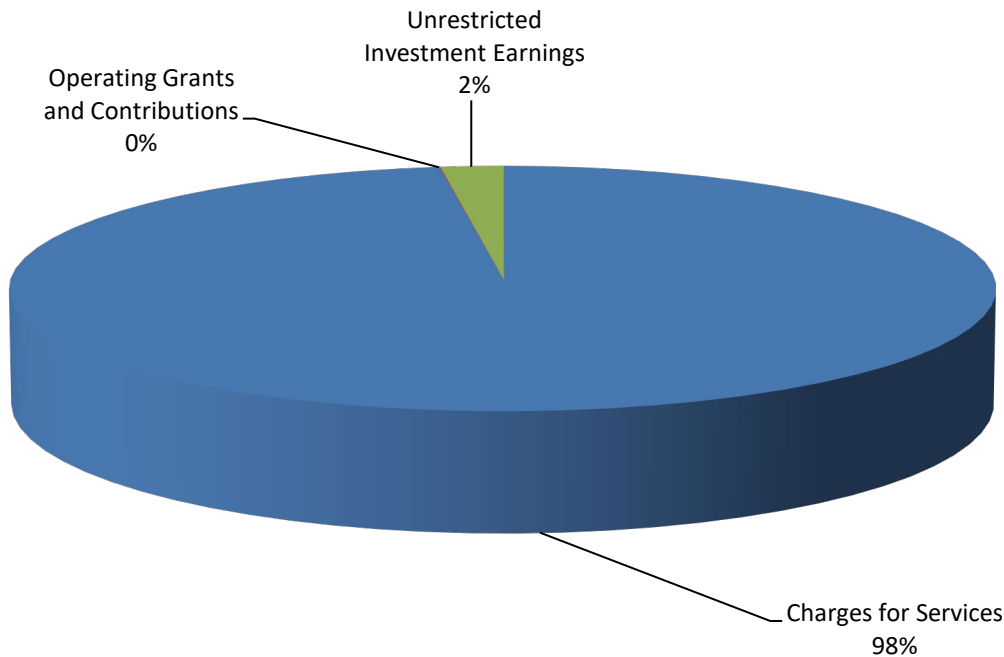

Business-Type Activities – Key factors in the business-type activities during 2020 are as follows:

- Utility rates were reviewed in conjunction with planning the 2020 fiscal year. Modest changes in the utility rate structures were necessary to offset anticipated capital activity. Overall utility revenues were modestly higher.
- Operating expenses were modestly higher overall when compared to the previous year.
- Nonoperating activities reported a decrease in investment income due to decreasing interest rates.
- Net transfers out of the City’s Enterprise Funds increased from the previous year as approved by City Council resolution.

Expenses and Program Revenues – Business-Type Activities

Revenues by Source – Business-Type Activities

FINANCIAL ANALYSIS OF THE GOVERNMENT’S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds – The focus of the City’s Governmental Funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City’s financing requirements. In particular, assigned and unassigned fund balance may serve as a useful measure of a government’s net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City’s Governmental Funds reported combined ending fund balances of \$18,589,243, an increase of \$573,321 in comparison with the prior year. Approximately 16.5% of this total amount, \$3,060,558 is restricted for debt service, tax increment purposes, economic development, parks and recreation, communications, public safety, and conservation. Approximately 58.4% or \$10,866,253 is assigned for future expenditures and 25.1% or \$4,662,432 is unassigned. Assigned and unassigned fund balance is available for spending at the government’s discretion.

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance was \$4,662,432. Due to the pattern of receipt of taxes and intergovernmental revenues mandated by the state, Minnesota cities do not receive any significant revenues in their General Funds until July of each year. The City’s policy is to end the year with a fund balance equal to 35% to 50% of the subsequent years budgeted revenues and transfers or a minimum of five months expenditures and transfers. Unassigned fund balance represents 62.9% of the 2021 Budgeted General Fund revenue and transfers from other funds.

Fund balance for the City’s General Fund increased by \$553,761 during the current fiscal year due to favorable revenue collections. The City had budgeted for a net decrease in fund balance of (\$246,000).

The Economic Development Authority Special Revenue Fund experienced an increase in fund balance of \$758,954 due to a planned transfer and planned activities.

The Tax Increment Financing District No. 5 Special Revenue Fund experienced an increase in fund balance of \$25,770 due to planned activities.

The Vehicle and Equipment Fund (Capital Projects) saw an increase in fund balance of \$52,273 due to postponed purchases.

The Street Improvement Fund (Capital Projects) experienced a decrease in fund balance of \$296,861 as a result of planned activities and reduced scope of a street project.

Proprietary Funds – The City’s Proprietary Funds provide the same type of information found in the government-wide financial statements, but in more detail.

The three major Utility Funds (Water, Sanitary Sewer, and Storm Water) saw mixed results for changes in total net position: the Water fund increased by \$92,142; the Sanitary Sewer fund increased by \$134,609; the Storm Water fund decreased by \$37,969. Rate increases helped improve results for all three funds. All three funds experienced slightly lower investment earnings as a result of lower interest rates.

GENERAL FUND BUDGETARY HIGHLIGHTS

General Fund revenues exceeded the budgeted amount by \$1,387,713 as a result of higher than expected property taxes, intergovernmental revenues, and investment earnings. Total expenditures were under budget and resulted in a variance of \$186,048 due to lower central service expenses and lower personnel costs due to vacancies. The Administration function exceeded budgeted amounts due to additional part-time staff. The Government buildings function exceeded budgeted amounts due to increased maintenance costs. The Miscellaneous and contingency function exceeded budget amounts due to additional contract costs for diversion activities. Vehicle maintenance exceeded budget amounts due to higher maintenance and repair costs. The Forestry function exceeded the budgeted amounts due to increased tree removal costs. The Debt service principal function exceeded budget amounts due to unplanned retirement of a capital lease. Transfers out exceeded the budget as a result of the City Council authorizing an additional transfer to the Community Center Special Revenue fund and the Special Projects Capital Projects fund at year end.

CAPITAL AND DEBT ADMINISTRATION

Capital Assets – The City’s investment in capital assets for its governmental and business-type activities as of December 31, 2020 was \$51,211,124 (net of accumulated depreciation). This investment in capital assets includes land, land improvements, buildings, infrastructure, equipment, and construction in progress. Capital assets increased for the current year by 4.2%. This was comprised primarily of an increase in construction in progress for street construction and water treatment plant upgrades.

Major capital asset events during the current fiscal year included the following:

- City Hall minor remodel.
- Quincy Street rehab project.
- Replacement of Police cars, Parks equipment, and Public Works vehicles.
- Water treatment plants 2&3 and booster station rehabilitation.

Total capital assets - net	\$ 41,919,911	\$ 42,553,236	\$ 9,291,213	\$ 6,595,530	\$ 51,211,124	\$ 49,148,766

Additional information on the City's capital assets can be found on pages 40-41.

Long-Term Debt – At the end of the current year, the City had total bonded debt and certificates outstanding of \$11,961,126 and this is backed by the full faith and credit of the City.

The City's Outstanding Debt

	Governmental Activities		Business-type Activities		Total	
	2020	2019	2020	2019	2020	2019
General obligation bonds	\$ 5,951,149	\$ 6,274,377	\$ 5,830,000	\$ -	\$ 11,781,149	\$ 6,274,377
G.O. fire equipment certificates	179,977	253,781	-	-	179,977	253,781
Capital lease	-	500,270	-	59,456	-	559,726
Total	\$ 6,131,126	\$ 7,028,428	\$ 5,830,000	\$ 59,456	\$ 11,961,126	\$ 7,087,884

Debt increased by \$4,873,242, or 68.8% during the current year as a result of issuing \$5,830,000 of G.O. Water Revenue bonds. Scheduled debt payments and the pay-off of the capital lease partially offset the increase from bonds issued in the current year.

State statutes limit the amount of general obligation debt a governmental entity may issue to 3% of its total estimated market value. The current debt limitation for the City is \$37,771,458, which is significantly in excess of the City's outstanding general obligation debt.

Additional information on the City's long-term debt can be found in the notes to basic financial statements on pages 43-45.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- The unemployment rate for Ramsey County (which includes the City) is 4.4%, which is a significant change from the rate of 2.9% a year ago. This rate compares favorably to the national rate of 6.7%.
- Inflationary trends in the region compare favorably to national indices.
- Home foreclosures are average to below average for the region.
- The U.S. Federal government, the State of Minnesota, County, and Municipal governments have been working together to address the corona virus pandemic and stimulate and support affected parts of the economy. This will have an unknown impact on the economy. The state is preparing the next two year budget and began the legislative session with a current surplus and a budget reserve at the statutory level. It is unknown at this time if the City will see a reduction in anticipated aid payments in the next state budget cycle. The City prepared the 2021 budget at 50% of certified state aid and thus any reduction will not have as adverse an impact on the City.

All of these factors were considered in preparing the City's budget for the 2021 fiscal year.

Utility rate studies are prepared for each of the City's four utilities every year. Water, Sanitary Sewer and Storm Water rates will increase for 2021. Street Light rates will remain the same as fiscal 2018.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Finance Director, 2401 Mounds View Boulevard, City of Mounds View, Minnesota 55112-1429.

CITY OF MOUNDS VIEW

Reconciliation of the Balance Sheet to the Statement of Net Position Governmental Funds December 31, 2020

Amounts reported for governmental activities in the Statement of Net Position are different because:

Total fund balances - governmental funds	\$ 18,589,243
Amounts reported for governmental activities in the Statement of Net Position are different because capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	41,919,911
Other long-term assets are not available to pay for current period expenditures and thus, are deferred inflows in the funds.	142,910
Long-term liabilities are included in net position, but are excluded from fund balances until due and payable.	
General Obligation bonds and certificates	(6,131,126)
Net pension liability - PERA	(3,363,996)
Compensated absences	(554,968)
Accrued interest payable	(65,196)
The recognition of certain revenues and expenses/expenditures differ between the full accrual governmental activities financial statements and the modified accrual governmental fund financial statements.	
Deferred outflows - PERA	1,370,371
Deferred inflows - PERA	<u>(1,597,920)</u>
Net position of governmental activities	<u><u>\$ 50,309,229</u></u>

The notes to the financial statements are an integral part of this statement.

CITY OF MOUNDS VIEW

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities Governmental Funds Year Ended December 31, 2020

Amounts reported for governmental activities in the Statement of Activities are different because:

Net change in fund balances – total Governmental Funds	\$ 573,321
Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	
Capital outlays	2,031,977
Depreciation expense	(2,665,302)
Repayment of long-term debt does not affect the change in net position. However, it reduces fund balances.	
Changes in bond interest payable	897,302
Changes in compensated absences	2,937
	(70,140)
Certain expenses are included in the change in net position, but do not require the use of current funds, and are not included in the change in fund balances.	
PERA	254,809
Certain revenues are included in the change in net position, but are excluded from the change in fund balances until they are available to liquidate liabilities of the current period.	
Delinquent taxes	3,525
Special assessments	(17,470)
Changes in net position of governmental activities	<u>\$ 1,010,959</u>

The notes to the financial statements are an integral part of this statement.

CITY OF MOUNDS VIEW

Notes to Basic Financial Statements
Year Ended December 31, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City of Mounds View, Minnesota (the City) is a municipal corporation that operates under a Home Rule Charter adopted on October 11, 1979. The City is governed by a Mayor/City Council form of government. The Mayor and City Council are elected on an at-large basis with the Mayor serving two year terms and the City Council serving four year terms.

The financial statements present the City and its component units. The City includes all funds, organizations, institutions, agencies, departments, and offices that are not legally separate. Component units are legally separate organizations for which the elected officials of the City are financially accountable and are included within the basic financial statements of the City because of their operational or financial relationship with the City.

The City is considered financially accountable for a component unit if it appoints a voting majority of the organization's governing body and is able to impose its will on the organization by significantly influencing the programs, projects, activities, or level of services performed or provided by the organization, or if there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the City.

As a result of applying the component unit definition criteria above, it has been determined that the City has one component unit.

Blended Component Unit

Economic Development Authority (EDA) – The EDA was created to carry out housing and economic development activities within the City. The governing board is the City Council. The City Council also approves tax levies and directs the activities of the EDA's management. Various city employees, such as the City Administrator, Finance Director, and the City's Attorney perform key management functions for the EDA. The EDA's activity is reported as the Economic Development Authority Special Revenue Fund. The EDA does not issue a separate report.

Joint Powers Organizations

Spring Lake Park – Blaine – Mounds View Fire Department – The City has joined with the cities of Blaine and Spring Lake Park to cooperatively provide fire protection services to their residents. This is provided by the Spring Lake Park – Blaine – Mounds View Fire Department (the Fire Department), a private nonprofit Internal Revenue Code Section 501c (3) organization. The service territory is generally comprised of the cities of Spring Lake Park, Blaine, and Mounds View.

The three cities agreed upon several significant provisions in their agreement dated December 11, 1990:

- a. The Fire Department is governed by its own Board of Directors. Directors are appointed by each city and from the Fire Department.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- b. Operation, maintenance, and debt service costs are shared based upon a formula. One half of the formula is the relative assessed value of each city. The other half is the three year average of fire calls within each city. The City's share of the formula is 15.998% in 2020 and will be 15.500% in 2021. The share will be set at a fixed amount in 2021 going forward and reviewed every five years.
- c. The city of Blaine issued \$4,900,000 G.O. Capital Improvement Refunding Bonds, Series 2013A on December 1, 2013 to refund the G.O. Capital Improvement Bonds, Series 2005A. They also issued \$1,070,000 of G.O. Equipment Certificates of Indebtedness, Series 2018A on June 28, 2018 to purchase a ladder truck and related equipment.
- d. The city of Spring Lake Park issued \$1,090,000 G.O. Equipment Certificates of Indebtedness, Series 2017A on March 21, 2017 to purchase certain pieces of fire equipment including a ladder truck.
- e. Each city has a non-measurable equity interest in the property that is held in the city of Blaine's name.

The City's share of operating costs were \$470,990, capital costs were \$51,194 and debt service costs were \$163,036 during 2020. These costs were recorded as expenditures in the General Fund.

The Fire Department and its relief association issue financial reports which are available at Mounds View city offices or at the Fire Department, 1710 Highway 10, Spring Lake Park, MN 55432.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e. Statement of Net Position and Statement of Activities) report information on all activities of the primary government and its component units. Government activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customer or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for Governmental Funds and Proprietary Funds. Major Individual Governmental Funds and Major Individual Enterprise Funds are reported as separate columns in the fund financial statements. All remaining funds are aggregated and reported as nonmajor funds as a separate column in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the Proprietary Fund statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government Fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay the liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, pensions, and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following Major Governmental Funds:

General Fund – The General Fund is the City’s primary operating fund. It accounts for all financial resources of the general government except those required to be accounted for in another fund.

Economic Development Authority Special Revenue Fund – accounts for the activity of the Economic Development Authority.

Tax Increment Financing District No. 5 Special Revenue Fund – The Tax Increment Financing District No. 5 Special Revenue Fund accounts for tax increments collected from properties within the district that are used to retire the developer note.

Vehicle and Equipment Capital Projects Fund – This fund accumulates resources for the eventual replacement of city vehicles and equipment.

Street Improvement Capital Projects Fund – This fund is used to account for the construction and major repair of City streets as part of the City’s street improvement program.

The City reports the following Major Proprietary Funds:

Water Fund – The Water Fund accounts for the activities associated with providing water service to city residents and businesses. Services are paid for by user fees.

Sanitary Sewer Fund – The Sanitary Sewer Fund accounts for the activities associated with providing sanitary sewer service to city residents and businesses. Services are paid for by user fees.

Storm Water Fund – The Storm Water Fund accounts for the construction and maintenance of storm water facilities. Utility fees are charged on the quarterly utility bill and impact fees are charged on new development of land.

Street Light Fund (nonmajor) – The Street Light Fund accounts for the activities associated with providing streetlight services to city residents and businesses. Services are paid for by user fees.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Amounts reported in the government-wide financial statements as program revenues include: (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary Funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a Proprietary Fund's principal ongoing operations. The principal operating revenues of the City's Enterprise Funds are charges to customers for sales and services. The City also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for Enterprise Funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Equity

1. Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the City to invest in obligations of the U.S. Treasury and federal agencies, commercial paper, repurchase agreements, and the State Treasurer's Investment Pool.

Investments are generally stated at fair value, except for investments in external investment pools, which are stated at amortized cost. Short-term highly liquid debt instruments (including commercial paper, bankers' acceptances, and U.S. treasury and agency obligations) purchased with a remaining maturity of one year or less are reported at amortized cost. Investment income is accrued at the balance sheet date. Investment earnings for the Cable Television, Police Forfeiture Special Revenue Funds, and the Vehicle and Equipment Capital Projects Fund are allocated to the General Fund.

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

See Note 3 for the City's recurring fair value measurements at year-end.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Receivables and Payables

When applicable, transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e. the current portion of interfund loans) or “advances to/from other funds” (i.e. the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.” Any residual balances outstanding between governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

All trade and property tax receivables are shown net of an allowance for uncollectible amounts, which are not material.

3. Property Taxes

Property tax levies are set by the City Council in December of each year and are certified to Ramsey County for collection in the following year. In Minnesota, counties act as collection agents for all property taxes. The County spreads all levies over taxable property. Such taxes become a lien on January 1, and are recorded as receivables by the City at that date.

Property taxes are levied as of January 1 on property values assessed of the previous January 1st. The tax levy is divided into two billings: the first billing (due on May 15) and the second billing (due on October 15). The billings are considered past due after the respective due dates at which time penalties and interest are assessed. Personal property taxes may be paid on February 28 and June 30. The County provides tax settlements to cities and other taxing districts normally during the months of July, December, and January. Taxes that remain unpaid at Ramsey County on December 31 are classified as delinquent taxes receivable and are offset by deferred inflow of resources in the Governmental Fund statements.

4. Land Held for Resale

Land held for resale represents various property purchases made by the City with the intent to sell in order to increase tax base or to attract new businesses. These assets are stated at the lower of cost or acquisition value.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

5. Capital Assets

Capital assets include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable government or business-type activities columns in the government-wide financial statements and in the Proprietary Fund financial statements.

Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 for purchased assets and \$25,000 for constructed assets and an estimated useful life in excess of three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at their estimated acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is reflected as part of the capitalized value of the asset constructed. Interest incurred during construction is not capitalized on capital assets of government-type activities.

Infrastructure assets have been capitalized retroactively to 1980 upon adoption of Governmental Accounting Standards Board (GASB) Statement No. 34. Depreciation on the City’s capital assets (including infrastructure) is recorded on a government-wide and Proprietary Fund basis.

Property, plant, and equipment of the City is depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	30–50
Infrastructure – distribution and collection systems	30–50
Infrastructure – streets	20–40
Equipment	3–20

6. Compensated Absences

It is the City’s policy to permit employees to accumulate earned but unused vacation and sick pay benefits. At termination of employment, employees receive all accrued vacation benefits and employees with sufficient years of service receive a percentage of their unpaid accumulated sick leave. Union employees and nonunion employees with two or more years qualify. Compensated absence pay is accrued when incurred in the government-wide and Proprietary Fund financial statements. A liability for these amounts is reported in Governmental Funds only if they have matured as the result of employee resignations or retirements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

7. Long-Term Obligations

In the government-wide financial statements and Proprietary Fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or Proprietary Fund-type Statement of Net Position. Bond premiums and discounts, when material are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, Governmental Fund-types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

8. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City only has one item that qualifies for reporting in this category. It is the deferred outflows of resources related to pensions reported in the government-wide and enterprise funds Statement of Net Position. This deferred outflow results from differences between expected and actual experience, changes of assumptions, changes in proportion, difference between projected and actual earnings on pension plan investments, and from contributions to the plan subsequent to the measurement date and before the end of the reporting period. These amounts are deferred and amortized as required under pension standards.

In addition to liabilities, statements of financial position or balance sheets will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The City has two types of items which qualify for reporting in this category.

The first item, unavailable revenue, arises only under a modified accrual basis of accounting and therefore is only reported in the governmental funds balance sheet. The governmental funds report unavailable revenue from two sources: property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

The second item, deferred inflows of resources related to pensions, is reported in the government-wide and enterprise funds Statement of Net Position. This deferred inflow results from differences between expected and actual experience, changes of assumptions, changes in proportion, and difference between projected and actual earnings on pension plan investments. These amounts are deferred and amortized as required under pension standards.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

9. Fund Balance Classifications/Flow Assumptions

In the fund financial statements, governmental funds report fund balance in classifications that disclose constraints for which amounts in those funds can be spent. The City has chosen to present the specific purpose constraints on the face of the balance sheet. These classifications are as follows:

- **Nonspendable** – Consists of amounts that are not in spendable form, such as prepaid items, inventory, and other long-term assets.
- **Restricted** – Consists of amounts related to externally imposed constraints established by creditors, grantors, or contributors; or constraints imposed by state statutory provisions.
- **Committed** – Consists of internally imposed constraints that are established by ordinance of the City Council. Those committed amounts cannot be used for any other purpose unless the City Council removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.
- **Assigned** – Consists of internally imposed constraints. These constraints consist of amounts intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds, assigned amounts represent intended uses established by the governing body itself or by an official to which the governing body delegates the authority. Pursuant to Council resolution, the City’s Administrator or Finance Director is authorized to establish assignments of fund balance.
- **Unassigned** – The residual classification for the General Fund which also reflects negative residual amounts in other funds.

When both restricted and unrestricted resources are available for use, it is the City’s policy to first use restricted resources, then use unrestricted resources as they are needed.

When committed, assigned, or unassigned resources are available for use, it is the City’s policy to use resources in the following order: 1) committed, 2) assigned, and 3) unassigned.

10. Minimum Unassigned Fund Balance Policy

The City Council has formally adopted a fund balance policy regarding the minimum unassigned fund balance for the General Fund. The policy establishes a minimum unassigned General Fund balance of between 35 percent and 50 percent of subsequent years budgeted revenues and transfers or a minimum five months of expenditures and transfers. At December 31, 2020, the unassigned fund balance of the General Fund was 62.9 percent of the subsequent year’s budgeted revenues and transfers compared to 54.9 percent for the prior year.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

11. Net Position/Flow Assumptions

Net position represents the difference between assets, liabilities, and deferred inflows/outflows of financial resources in the government-wide and Proprietary Fund financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Net position is reported as restricted when there are limitations imposed on its use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. When both restricted net position and unrestricted net position are available for use, it is the City's policy to use restricted resources first, and then unrestricted resources as they are needed.

12. Statement of Cash Flows

For purposes of the Statement of Cash Flows, the City considers all highly liquid debt instruments with an original maturity from the time of purchase by the City of three months or less to be cash equivalents. The Proprietary Funds' portion in the city-wide cash and investment management pool is considered to be cash equivalent.

13. Use of Estimates

The preparation of financial statements, in accordance with accounting principles generally accepted in the United States of America, requires management to make estimates that affect amounts reported in the financial statements during the reporting period. Actual results could differ from such estimates.

14. Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for the General Fund and Special Revenue Funds. Debt Service Funds do not have annual budgets but follow the requirements set at the time of bond issuance. Capital Projects Funds adopt project-length budgets. All annual appropriations lapse at fiscal year-end.

NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (CONTINUED)

A. Budgetary Information (continued)

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- Prior to September 15, the City Administrator submits to the City Council a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
- Informational meetings are held on the preliminary budget during the budget process with formal public hearings being conducted between November 29 and December 30 to obtain taxpayer comments.
- The budget is legally enacted through passage of a resolution prior to December 31.
- The City Council may authorize transfers of budgeted amounts between departments within any fund.
- Budgetary control is maintained at the department level within each fund. Also inherent in this controlling function is the management philosophy that the existence of a particular item or appropriation in the approved budget does not automatically mean that it will be spent. The budget process has flexibility in that, where need has been properly demonstrated, an adjustment can be made within the department budget by the City Administrator, or between departments by the City Council. Therefore, there is a constant review process and expenditures are not approved until it has been determined that: (1) adequate funds were appropriated, (2) the expenditure is still necessary, and (3) funds are available.

The City Council made no supplementary budgetary appropriations during the year.

B. Excess of Expenditures Over Appropriations

For the year ended December 31, 2020, expenditures exceeded appropriations in the following departments (the legal level of budgetary control) of the City’s funds with budgets approved by the City Council. These over expenditures were funded by greater than anticipated revenues or fund balance.

General Fund	
Administration	\$ 22,414
Government buildings	\$ 20,697
Miscellaneous and contingency	\$ 17,352
Vehicle maintenance	\$ 5,247
Forestry	\$ 10,399
Debt service - principal	\$ 155,085
Transfers out	\$ 750,000
Police Forfeiture - other governmental funds	\$ 12,952
Community Center - other governmental funds	\$ 173,738
TIF District No. 6 - other governmental funds	\$ 507

NOTE 3 – DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

At year-end, the City's carrying amount of deposits was \$1,016,892 and the bank balance was \$1,018,878. Custodial credit risk is the risk that in the event of a financial institution failure, the City's deposits may not be returned to it. Minnesota statutes require City deposits to be covered by FDIC deposit insurance or pledged collateral. All of the bank balance, as of year-end, was covered by federal depository insurance or by collateral held by the City's agent in the City's name. The following are other risks that deposits and investments may be subject to:

Concentration of Credit Risk

The concentration of credit risk is the risk of loss that may be caused by the City's investment in a single issuer. The City's policy is to try to limit over-concentration in securities of a specific issuer or business sector excluding U.S. government backed securities. Investments in any one issuer that represent 5% or more of the City's investments are as follows:

<u>Issuer</u>	<u>Amount</u>
Federal Home Loan Mortgage Corporation	\$ 1,652,060
Federal Home Loan Bank Notes & Bonds	1,600,256
Federal Farm Credit Bank Bonds	3,085,334

Interest Rate Risk

Interest rate risk is the risk that changes in the market interest rates will adversely affect the fair value of an investment. The City's policy is to never directly invest in securities maturing more than ten years from the date of purchase and to maintain an average weighted maturity up to three years to the extent possible.

Custodial Credit Risk

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the City will not be able to recover the value of an investment that is in the possession of an outside party. The City does not have a policy for custodial credit risk.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The City's policy is to limit the type of securities invested in to: U.S. government backed securities; commercial paper of A-1, P-1, F-1, D-1 or higher quality; Certificates of deposit; Bankers' acceptances; Money market mutual funds regulated by the Securities and Exchange Commission with portfolios of only dollar denominated securities; and Local government investment pools either state administered or developed through joint powers statutes and other intergovernmental agreement legislation.

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

The following table presents the City’s investment balances at December 31, 2020, and information relating to interest and credit quality investment risks:

Investment type	Credit Rating	Rating Agency	Weighted Average Maturity (Years)	Fair Value Measurement	Carrying (Fair) Value
U.S. Government agency securities					
Federal Home Loan Mortgage Corporation	Aaa	Moody's	2.46	Level 2	\$ 1,652,060
Federal Home Loan Bank Notes & Bonds	Aa	S&P	4.97	Level 2	1,600,256
Federal Farm Credit Bank Bonds	Aa	S&P	2.89	Level 2	3,085,334
Negotiable certificates of deposit	Not Rated		0.74	Level 2	10,346,662
Investment pools/mutual funds					
4M fund	Not Rated		N/A	N/A	8,380,162
Wells Fargo Advantage 100% Treasury	Aaa	Moody's, S&P	N/A	Level 1	8,582
Total Investments					25,073,056
Deposits					1,016,892
Change funds					483
Total cash and investments					\$ 26,090,431

N/A - Not Applicable

The Minnesota Municipal Money Market (4M Fund) is an external investment pool not registered with the Securities and Exchange Commission (SEC) that follows the same regulatory rules of the SEC. The fair value of the position in the pool is the same as the value of the pool shares, which is based on an amortized cost method that approximates fair value. The 4M Fund is sponsored by the League of Minnesota Cities. Investments are purchased and regulated according to Minnesota Statutes. For this investment pool, there are no unfunded commitments, redemption frequency is daily, and there is no redemption notice required for the liquid class; the redemption notice period is 14 days for the Plus Class.

B. Receivables

Special assessment receivables are generally payable in equal annual installments of one to ten years plus interest. Interest rates are between 5% and 5.5%. Based on the payment schedule for special assessment receivables, \$82,234 of the amount is not expected to be collected within the next year.

Unearned revenue of \$68,080 in the General Fund represents prepayment of rent due in future years.

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

C. Capital Assets

Capital asset activity for the year ended December 31, 2020, was as follows:

1. Governmental Activities

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Retirements</u>	<u>Ending Balance</u>
Capital assets, not being depreciated				
Land	\$ 642,416	\$ -	\$ -	\$ 642,416

Depreciation expense was charged to functions/programs of the City as follows:

Governmental activities	
General government	\$ 245,815
Public safety	159,626
Streets and highways	1,883,536
Culture and recreation	376,325
Total depreciation expense – governmental activities	<u>\$ 2,665,302</u>
Business-type activities	
Water	\$ 198,159
Sanitary sewer	113,690
Storm water	35,916
Total depreciation expense – business-type activities	<u>\$ 347,765</u>

The City's commitment for uncompleted work at December 31, 2020 is \$1,317,331.

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

D. Interfund Receivables/Payables

Interfund borrowing is done for cash flow purposes. The composition of Interfund balances as of December 31, 2020 is as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
Street Improvement Capital Projects Fund	Economic Development Authority Special Revenue Fund	<u><u>\$ 700,000</u></u>

E. Interfund Transfers and Borrowings

Transfers are made in accordance with the budget or as approved by the City Council. Transfers are used to move restricted and unrestricted revenues from various funds to finance various programs that the government must account for in other funds in accordance with budgetary and statutory authorizations. The following is a summary of the 2020 transfers:

<u>Fund Making Transfer</u>	<u>Fund Receiving Transfer</u>	<u>Amount</u>
General Fund	Community Center other governmental funds	\$ 550,000
	EDA Fund	50,000
	Vehicle and Equipment Fund	299,000
	Special Projects other governmental funds	475,000
		<u><u>1,374,000</u></u>
TIF District No. 5 Fund	EDA Fund	<u><u>88,036</u></u>
Street Improvement Capital Project Fund	EDA Fund	<u><u>701,000</u></u>
Water Fund	General Fund	82,859
	Vehicle and Equipment Fund	67,000
		<u><u>149,859</u></u>
Sanitary Sewer Fund	General Fund	82,859
	Vehicle and Equipment Fund	55,000
		<u><u>137,859</u></u>
Storm Water Fund	General Fund	8,558
	Vehicle and Equipment Fund	33,000
		<u><u>41,558</u></u>
Street Light Fund	General Fund	<u><u>2,940</u></u>
Total		<u><u>\$ 2,495,252</u></u>

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

F. Capital Lease

The City of Mounds View entered into a lease agreement as lessee for financing energy saving improvements to the Community Center, City Hall, and trail lights valued at \$874,964. The equipment has an estimated useful life of between 15 – 25 years. The lease carries an interest rate of 2.99% and matures February 23, 2027. This year, \$52,117 was included in depreciation expense, accumulated depreciation over the life of the equipment is \$208,468. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date. \$781,756 was capitalized as equipment in governmental activities with the remaining portion for business-type activities, which was not capitalized because individual assets were below the City’s capitalization threshold. The General Fund, Community Center Special Revenue Fund, and Street Light Enterprise Fund are used to liquidate the lease liability. The City elected to retire this lease in 2020 thus the outstanding balance is \$0.

G. Long-Term Debt

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities and firefighting equipment. General obligation bonds outstanding have been issued for governmental activities and business-type activities. The City also sometimes participates in bonds and equipment certificates issued by the partner cities for the benefit of the Fire Department. General obligation bonds are direct obligations that pledge the full faith and credit of the City. These bonds generally mature over periods of five to twenty years. Bonds are usually structured so that the amount of principal maturing increases each year as the interest amount decreases. Outstanding bonded obligations are as follows:

- **G.O. Fire Improvement Refunding Bonds and Certificates** – These bonds and certificates were issued by the city of Blaine and the city of Spring Lake Park on behalf of the cities of Blaine, Spring Lake Park, and Mounds View to construct a fire station and purchase fire equipment for the Fire Department. The allocation of debt service payments and the remaining outstanding debt is adjusted annually between the three cities and is based upon a formula. The debt service is paid out of the General Fund.
- **G.O. Capital Improvement Plan Bonds** – These bonds were issued by the City to finance the construction of a public works facility. The debt service will be paid out of the G.O. CIP 2017A Debt Service Fund.
- **G.O. Water Revenue Bonds** – These bonds were issued by the City to finance the rehabilitation of water infrastructure including the three water treatment plants and the booster station. The debt service will be paid out of the Water enterprise fund.

	<u>Original Issue</u>	<u>Interest Rate</u>	<u>Maturity Date</u>	<u>Balance – December 31, 2020</u>
Governmental activities				
2013 G.O. Fire Improvements Refunding Bonds	\$ 4,900,000	1.0–2.0%	2025	\$ 411,149
2017A G.O. Fire Equipment Certificates	1,090,000	.5–1.45%	2022	72,791
2018A G.O. Fire Equipment Certificates	1,070,000	3.0–5.0%	2023	107,186
2017A G.O. Capital Improvements Plan Bonds	6,000,000	2.7–3.5%	2038	<u>5,540,000</u>
Total governmental activities				6,131,126
Business-type activities				
2020A G.O. Water Revenue Bonds	5,830,000	1.0–2.0%	2036	<u>5,830,000</u>
Total				<u>\$ 11,961,126</u>

All bonds are backed by the full faith and credit of the City.

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

G. Long-Term Debt (continued)

During the year ended December 31, 2020, the following changes occurred in long-term liabilities:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Reported in governmental activities					
General obligation bonds	\$ 6,274,377	\$ -	\$ 323,228	\$ 5,951,149	\$ 315,950
G.O. equipment certificates	253,781	-	73,804	179,977	68,200
Capital lease payable	500,270	-	500,270	-	-
Net pension liability - PERA	2,972,538	989,097	597,639	3,363,996	-
Compensated absences	484,828	312,554	242,414	554,968	138,472
Subtotal	10,485,794	1,301,651	1,737,355	10,050,090	522,622
Reported in business-type activities					
G.O. water revenue bonds	-	5,830,000	-	5,830,000	-
Bond premium	-	271,528	-	271,528	-
Capital lease payable	59,456	-	59,456	-	-
Net pension liability - PERA	463,846	156,835	80,389	540,292	-
Compensated absences	67,878	57,951	33,939	91,890	22,973
Subtotal	591,180	6,316,314	173,784	6,733,710	22,973
Total	\$ 11,076,974	\$ 7,617,965	\$ 1,911,139	\$ 16,783,800	\$ 545,595

The General Fund is typically used to liquidate the liability for governmental compensated absences and net pension liability.

The annual requirements to amortize all bonds and certificates outstanding at year-end are as follows:

Year Ending December 31,	Governmental Activities		Business-Type Activities	
	G.O. Bonds & Certificates		Revenue Bonds	
	Principal	Interest	Principal	Interest
2021	\$ 384,150	\$ 163,965	\$ -	\$ 54,756
2022	402,412	152,922	335,000	90,072
2023	374,185	142,326	350,000	83,223
2024	343,990	132,938	355,000	76,172
2025	356,389	123,284	360,000	69,023
2026 - 2030	1,470,000	494,650	1,920,000	232,612
2031 - 2035	1,675,000	283,037	2,080,000	82,879
2036 - 2038	1,125,000	53,803	430,000	2,688
	\$ 6,131,126	\$ 1,546,925	\$ 5,830,000	\$ 691,425

H. Revenue Pledged

Future revenue pledged for the payment of long-term debt is as follows:

Debt Issue	Use of Proceeds	Revenue Pledged			Remaining Principal and Interest	Current Year	
		Type	Percent of Total Debt Service	Term of Pledge		Principal and Interest Paid	Pledged Revenue Received
Water revenue bonds of 2020A	Utility Improvements	Utility charges	100%	2020 - 2036	\$ 6,521,425	\$ -	\$ 1,366,246

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

I. Other Bond Issues

The aggregate amount of conduit debt outstanding at December 31, 2020 could not be determined. The original issued amounts total \$3,000,000. The City is not obligated in any manner for the repayment of the bonds. Accordingly, the bonds are not reported as a liability in the accompanying financial statements.

J. Other Long Term Debt

City employees participate in two state-wide, cost-sharing, multi-employer defined benefit pension plans administered by PERA. The following is a summary of the net pension liabilities, deferred outflows and inflows of resources, and pension expense reported for these plans as of and for the year ended December, 31, 2020.

<u>Pension Plans</u>	<u>Net Pension Liabilities</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>	<u>Pension Expense</u>
PERA - GERF	\$ 1,672,732	\$ 187,820	\$ 165,485	\$ (260)
PERA - PEPFF	<u>2,231,556</u>	<u>1,243,216</u>	<u>1,485,886</u>	<u>309,168</u>
Total	<u>\$ 3,904,288</u>	<u>\$ 1,431,036</u>	<u>\$ 1,651,371</u>	<u>\$ 308,908</u>

NOTE 4 – OTHER INFORMATION

A. Risk Management

The City is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the City carries commercial insurance. The City retains risk for the deductible portions of the insurance policies and for any exclusion from said policies. These amounts are considered to be immaterial to the financial condition of the City. There were no significant reductions in insurance from the previous year or settlements in excess of insurance coverage for the past three fiscal years.

Workers’ compensation is provided through a pooled self-insurance program through the League of Minnesota Cities Insurance Trust (LMCIT). The City pays an annual premium to LMCIT. The City is subject to supplemental assessments if deemed necessary by LMCIT. LMCIT reinsures through Workers’ Compensation Reinsurance Association as required by law. The City has a \$5,000 deductible for which it retains the risk. These deductibles are considered to be immaterial to the financial statements.

Property, casualty, and automobile insurance coverage are provided through a pooled self-insurance program through LMCIT. The City pays an annual premium to LMCIT. The City is subject to supplemental assessments if deemed necessary by LMCIT. LMCIT reinsures through commercial companies for claims in excess of various amounts. The City has a \$25,000 deductible for which it retains the risk. These deductibles are considered to be immaterial to the financial statements.

NOTE 4 – OTHER INFORMATION (CONTINUED)

B. Contingent Liabilities

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the City's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the City.

The City's tax increment districts are subject to review by the state of Minnesota Office of the State Auditor (OSA). Any disallowed claims or misuse of tax increments could become a liability of the applicable fund. Management has indicated that they are not aware of any instances of noncompliance which would have a material effect on the financial statements.

Amounts recorded or receivable from federal and state agencies are subject to agency audit and adjustment. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of claims which may be disallowed by the grantor agencies cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

C. Tax Increment Pay-As-You-Go Financing Revenue Notes

The City has entered into private development agreements regarding certain tax increment properties. Contemplated in the development agreement was the reimbursement of the developer for special trunk assessments. The vehicle used for this reimbursement is called a tax increment revenue note.

This note provides for the payment of principal, equal to the developer's costs, plus interest at a set rate. Payments on the loan will be made at the lesser of the note payment or the actual net tax increment received (or a reduced percentage received in certain cases) during specific years as stated in the agreements. Payments are first applied to accrued interest and then to the principal balance. The note is canceled at the end of the agreement term, whether or not the note has been repaid. Any additional tax increments received in years following the term are retained by the City.

The outstanding principal balance as of December 31, 2020, for the two agreements was \$20,485,157. This amount is not included in long-term debt because of the nature of the note in that repayment is required only if sufficient tax increments are received. The City's position is that these are obligations to assign future and uncertain revenue sources and, as such, is not actual debt in substance.

D. Defined Benefit Pension Plans – State-Wide

1. Plan Description

The City participates in the following cost-sharing multiple-employer defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

A. General Employees Retirement Fund (GERF)

All full-time and certain part-time employees of the City are covered by the GERF. GERF members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

NOTE 4 – OTHER INFORMATION (CONTINUED)

B. Public Employees Police and Fire Fund (PEPFF)

The PEPFF, originally established for police officers and firefighters not covered by a local relief association, now covers all police officers and firefighters hired since 1980. Effective July 1, 1999, the PEPFF also covers police officers and firefighters belonging to a local relief association that elected to merge with and transfer assets and administration to PERA.

2. Benefits Provided

PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state legislature. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

A. GERP Benefits

General Employees Plan benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated members is 1.2 percent of average salary for each of the first 10 years of service and 1.7 percent of average salary for each additional year. Under Method 2, the accrual rate for Coordinated members is 1.7 percent of average salary for all years of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

Annuities, disability benefits, and survivor benefits are increased effective every January 1. Beginning January 1, 2019, the postretirement increase will be equal to 50 percent of the cost-of-living adjustment (COLA) announced by the SSA, with a minimum increase of at least 1 percent and a maximum of 1.5 percent. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase will receive the full increase. For recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase will receive a reduced prorated increase. For members retiring on January 1, 2024, or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under Rule of 90 are exempt from the delay to normal retirement.

B. PEPFF Benefits

Benefits for Police and Fire Plan members first hired after June 30, 2010, but before July 1, 2014, vest on a prorated basis from 50 percent after five years up to 100 percent after ten years of credited service. Benefits for Police and Fire Plan members first hired after June 30, 2014, vest on a prorated basis from 50 percent after ten years up to 100 percent after twenty years of credited service. The annuity accrual rate is 3 percent of average salary for each year of service. A full, unreduced pension is earned when members are age 55 and vested, or for members who were first hired prior to July 1, 1989, when age plus years of service equal at least 90.

Annuities, disability benefits, and survivor benefits are increased effective every January 1. Beginning January 1, 2019, the postretirement increase will be fixed at 1 percent. Recipients that have been receiving the annuity or benefit for at least 36 months as of the June 30 before the effective date of the increase will receive the full increase. For recipients receiving the annuity or benefit for at least 25 months but less than 36 months as of the June 30 before the effective date of the increase will receive a reduced prorated increase.

NOTE 4 – OTHER INFORMATION (CONTINUED)

3. Contributions

Minnesota Statutes Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state legislature.

A. GERF Contributions

Coordinated Plan members were required to contribute 6.50 percent of their annual covered salary in fiscal year 2020 and the City was required to contribute 7.50 percent for Coordinated Plan members. The City’s contributions to the General Employees Fund for the year ended December 31, 2020, were \$160,346. The City’s contributions were equal to the required contributions as set by state statute.

B. PEPFF Contributions

Plan members contribution rates increased from 11.3 percent of pay to 11.8 percent and employer rates increased from 16.95 percent to 17.7 percent on January 1, 2020. The City’s contributions to the Police and Fire Fund for the year ended December 31, 2020, were \$358,581. The City’s contributions were equal to the required contributions as set by state statute.

4. Pension Costs

A. GERF Pension Costs

At December 31, 2020, the City reported a liability of \$1,672,732 for its proportionate share of the GERF’s net pension liability. The City’s net pension liability reflected a reduction due to the State of Minnesota’s contribution of \$16 million. The State of Minnesota is considered a non-employer contributing entity and the state’s contribution meets the definition of a special funding situation. The State of Minnesota’s proportionate share of the net pension liability associated with the City totaled \$51,652. The net pension liability was measured as of June 30, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City’s proportion of the net pension liability was based on the City’s contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2019, through June 30, 2020, relative to the total employer contributions received from all of PERA’s participating employers. At June 30, 2020, the City’s proportion was 0.0279% which was a decrease of 0.0010% from its proportion measured as of June 30, 2019.

For the year ended December 31, 2020, the City recognized pension expense of \$(4,755) for its proportionate share of the GERF’s pension expense. In addition, the City recognized an additional \$4,495 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota’s contribution of \$16 million to the General Employees Fund.

At December 31, 2020, the City reported its proportionate share of the GERF’s deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 15,750	\$ 6,329
Changes in actuarial assumptions	-	61,829
Difference between projected and actual investment earnings	25,711	-
Changes in proportion	61,022	97,327
Contributions paid to PERA subsequent to the measurement date	85,337	-
Total	\$ 187,820	\$ 165,485

NOTE 4 – OTHER INFORMATION (CONTINUED)

\$85,337 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2021. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31:	Pension expense amount
2021	\$ (138,053)
2022	16,567
2023	18,070
2024	40,414
Total	<u>\$ (63,002)</u>

B. PEPFF Pension Costs

At December 31, 2020, the City reported a liability of \$2,231,556 for its proportionate share of the PEPFF’s net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City’s proportion of the net pension liability was based on the City’s contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2019, through June 30, 2020, relative to the total employer contributions received from all of PERA’s participating employers. At June 30, 2020, the City’s proportion was 0.1693% which was a decrease of 0.0034% from its proportion measured as of June 30, 2019.

The State of Minnesota also contributed \$13.5 million to the Police and Fire Fund in the plan fiscal year ended June 30, 2020. The contribution consisted of \$4.5 million in direct state aid that does meet the definition of a special funding situation and \$9.0 million in fire state aid that does not meet the definition of a special funding situation. The \$4.5 million direct state was paid on October 1, 2019. Thereafter, by October 1 of each year, the state will pay \$9 million to the Police and Fire Fund until full funding is reached or July 1, 2048, whichever is earlier. The \$9 million in fire state aid will continue until the fund is 90 percent funded, or until the State Patrol Plan (administered by the Minnesota State Retirement System) is 90 percent funded, whichever occurs later.

As a result, the State of Minnesota is included as a non-employer contributing entity in the Police and Fire Retirement Plan Schedule of Employer Allocations and Schedule of Pension Amounts by Employer, Current Reporting Period Only (pension allocation schedules) for the \$4.5 million in direct state aid. The State of Minnesota’s proportionate share of the net pension liability associated with the City totaled \$52,575. Police and Fire Plan employers need to recognize their proportionate share of the State of Minnesota’s pension expense (and grant revenue) under GASB 68 special funding situation accounting and financial reporting requirements. For the year ended December 31, 2020, the City recognized pension expense of \$292,993 for its proportionate share of the PEPFF’s pension expense. In addition, the City recognized an additional \$16,175 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota’s contribution of \$4.5 million to the Police and Fire Fund.

The State of Minnesota is not included as a non-employer contributing entity in the Police and Fire Pension Plan pension allocation schedules for the \$9 million in fire state aid. The City also recognized \$15,237 for the year ended December 31, 2020 as revenue and an offsetting reduction of net pension liability for its proportionate share of the State of Minnesota’s on-behalf contributions to the Police and Fire Fund.

There were no provision changes during the measurement period.

NOTE 4 – OTHER INFORMATION (CONTINUED)

At December 31, 2020, the City reported its proportionate share of the PEPFF’s deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 95,266	\$ 99,527
Changes in actuarial assumptions	702,343	1,249,140
Difference between projected and actual investment earnings	99,481	-
Changes in proportion	156,032	137,219
Contributions paid to PERA subsequent to the measurement date	190,094	-
Total	\$ 1,243,216	\$ 1,485,886

\$190,094 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2021. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31:	Pension expense amount
2021	\$ (117,566)
2022	(562,442)
2023	132,328
2024	119,386
2025	(4,470)
Total	\$ (432,764)

5. Actuarial Assumptions

The total pension liability in the June 30, 2020, actuarial valuation was determined using an individual entry-age normal actuarial cost method and the following actuarial assumptions:

Inflation	2.50% per year
Active Member Payroll Growth	3.25% per year
Investment Rate of Return	7.50%

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors and disabilitants for all plans were based on RP 2014 tables for males or females, as appropriate, with slight adjustments to fit PERA’s experience. Cost of living benefit increases for retirees are assumed to be: 1.25 percent per year for the General Employee’s Plan and 1.0 percent per year for the Police and Fire Plan.

Actuarial assumptions used in the June 30, 2020 valuation were based on the results of actuarial experience studies. The most recent four-year experience study in the General Employees Plan was completed in 2019. The assumption changes were adopted by the Board and become effective with the July 1, 2020 actuarial valuation. The most recent four-year experience study for the PEPFF was completed in 2020. The recommended assumptions for those plans were adopted by the Board and will be effective with the July 1, 2021 actuarial valuations if approved by the State Legislature.

NOTE 4 – OTHER INFORMATION (CONTINUED)

The following changes in actuarial assumptions and plan provisions occurred in 2020:

General Employees Fund

Changes in Actuarial Assumptions:

- The price inflation assumption was decreased from 2.50% to 2.25%.
- The payroll growth assumption was decreased from 3.25% to 3.00%.
- Assumed salary increase rates were changed as recommended in the June 30, 2019 experience study. The net effect is assumed rates that average 0.25% less than previous rates.
- Assumed rates of retirement were changed as recommended in the June 30, 2019 experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements.
- Assumed rates of termination were changed as recommended in the June 30, 2019 experience study. The new rates are based on service and are generally lower than the previous rates for years 2-5 and slightly higher thereafter.
- Assumed rates of disability were changed as recommended in the June 30, 2019 experience study. The change results in fewer predicted disability retirements for males and females.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 General Mortality table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 disabled annuitant mortality table to the PUB-2010 General/Teacher disabled annuitant mortality table, with adjustments.
- The mortality improvement scale was changed from Scale MP-2018 to Scale MP-2019.
- The assumed spouse age difference was changed from two years older for females to one year older.
- The assumed number of married male new retirees electing the 100% Joint & Survivor option changed from 35% to 45%. The assumed number of married female new retirees electing the 100% Joint & Survivor option changed from 15% to 30%. The corresponding number of married new retirees electing the Life annuity option was adjusted accordingly.

Changes in Plan Provisions:

- Augmentation for current privatized members was reduced to 2.0% for the period July 1, 2020 through December 31, 2023 and 0.0% after. Augmentation was eliminated for privatizations occurring after June 30, 2020.

Police and Fire Fund

Changes in Actuarial Assumptions:

- The mortality projection scale was changed from MP-2018 to MP-2019.

Changes in Plan Provisions:

- There have been no changes since the prior valuation.

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages.

NOTE 4 – OTHER INFORMATION (CONTINUED)

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Stocks	35.5%	5.10%
Alternate Assets	25.0%	5.90%
Bonds (Fixed Income)	20.0%	0.75%
International Stocks	17.5%	5.30%
Cash Equivalents	2.0%	0.00%

6. Discount Rate

The discount rate used to measure the total pension liability in 2020 was 7.50%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net position of the General Employees Fund and the Police and Fire Fund were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

7. Pension Liability Sensitivity

The following presents the City’s proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City’s proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

Sensitivity of Net Pension Liability at Current Single Discount Rate

	<u>General Employees Fund</u>		<u>Police and Fire Fund</u>	
1% Lower	6.50%	\$ 2,680,810	6.50%	\$ 4,447,811
Current Discount Rate	7.50%	1,672,732	7.50%	2,231,556
1% Higher	8.50%	841,150	8.50%	397,992

8. Pension Plan Fiduciary Net Position

Detailed information about each pension plan’s fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the Internet at www.mnpera.org.

E. Defined Contribution Plan

Three City Council members of the City are covered by the Public Employees Defined Contribution Plan (PEDCP), a multi-employer deferred compensation plan administered by PERA. The PEDCP is a tax qualified plan under Section 401(a) of the Internal Revenue Code and all contributions by or on behalf of employees are tax deferred until the time of withdrawal.

NOTE 4 – OTHER INFORMATION (CONTINUED)

Plan benefits depend solely on amounts contributed to the plan plus investment earnings, less administrative expenses. Minnesota Statutes, Chapter 353D.03, specifies plan provisions, including the employee and employer contribution rates for those qualified personnel who elect to participate. An eligible elected official who decides to participate contributes 5% of salary, which is matched by the elected official’s employer. For ambulance service personnel, employer contributions are determined by the employer, and for salaried employees, employer contributions must be a fixed percentage of salary. Employer contributions for volunteer personnel may be a unit value for each call or period of alert duty. Employees who are paid for their services may elect to make member contributions in an amount not to exceed the employer share. Employer and employee contributions are combined and used to purchase shares in one or more of the seven accounts of the Minnesota Supplemental Investment Fund. For administering the plan, PERA receives 2% of employer contributions and twenty-five hundredths of 1% of the assets in each member’s account annually.

	<u>Contribution Amount</u>		<u>Percent of Covered Payroll</u>		<u>Required Rates</u>
	<u>Employees</u>	<u>Employer</u>	<u>Employees</u>	<u>Employer</u>	
2020	\$ 1,050	\$ 1,050	5.0%	5.0%	5.0%
2019	1,050	1,050	5.0%	5.0%	5.0%
2018	1,050	1,050	5.0%	5.0%	5.0%

F. Flexible Benefit Plan

The City has a flexible benefit plan that is classified as a “cafeteria plan” (the Plan) under section 125 of the Internal Revenue Code. All full-time employees of the City are eligible. Eligible employees can elect to participate by contributing pre-tax dollars withheld from payroll checks to the Plan for health and dental insurance, medical expenses, and dependent care benefits. Payments are made from the plan to participating employees upon submitting a request for reimbursement of eligible expenses actually incurred by the participant.

Before the beginning of the Plan year, which is from January 1 to December 31, each participant designates a total amount of pre-tax dollars to be contributed to the Plan during the year. At December 31, the City is contingently liable for claims against the total amount of participant’s annual contributions to the plan, whether or not such contributions have been made.

An independent contractor serves as trustee and handles all plan record keeping. Employee contributions are included as personal services expenditures in the funds the employee is charged to.

All property of the Plan and income attributable to that property is solely the property of the City subject to the claims of the City’s general creditors. Participants’ rights under the Plan are equal to those of general creditors of the City in an amount equal to the eligible healthcare and dependent care expenses incurred by the participants. The City believes that it is unlikely that it will use the assets to satisfy the claims of general creditors in the future.

NOTE 4 – OTHER INFORMATION (CONTINUED)

G. Tax Abatement Agreements

The City, in order to spur economic development and redevelopment will enter into private development and redevelopment agreements to encourage a developer to construct, expand, or improve new or existing properties and buildings or clean-up and redevelop blighted areas. These agreements may in substance be a tax abatement but will depend on their individual circumstances. The City currently has two agreements that would be considered a tax abatement under GASB Statement 77.

In 2018, the City entered into a development agreement with Boulevard Apartments, Limited Partnership to construct a 60-unit workforce rental building. This site was previously 2 parcels of tax forfeited land and 2 residential parcels. The City will abate \$546,000 of the incremental taxes received through the execution of a tax increment revenue note to be retired over 15 years or sooner.

In 2005, the City entered into a development agreement with Medtronic, Inc. to purchase land held by the City and construct a corporate campus on the site. The site was previously a golf course owned by the City. The City used an economic development vehicle known as tax increment financing whereby tax increment revenue is generated on the incremental increase in value above a base value established on the date that the tax increment district is created. The City will abate 95% of the incremental taxes received through execution of a tax increment revenue note to be retired over the life of the district with district statutory decertification to occur in 2033 or sooner if the revenue note is retired.

The City is authorized to create a tax increment financing plan under Minnesota Statute 469.175. The criteria that must be met under the statute are that, in the opinion of the municipality:

- the proposed development or redevelopment would not reasonably be expected to occur solely through private investment within the reasonably foreseeable future; and
- the increased market value of the site that could reasonably be expected to occur without the use of tax increment financing would be less than the increase in the market value estimated to result from the proposed development after subtracting the present value of the projected tax increments for the maximum duration of the district permitted by the plan. The requirements of this item do not apply if the district is a housing district;
- that the tax increment financing plan conforms to the general plan for the development or redevelopment of the municipality as a whole;
- that the tax increment financing plan will afford maximum opportunity, consistent with the sound needs of the municipality as a whole, for the development or redevelopment of the project by private enterprise;

The developer (Boulevard Apartments, LP) agreed to a number of restrictive covenants related to income limitations for residents of the rental building and is required to submit a report on compliance annually by January 31. The developer is in compliance. The City rebated \$4,873 to retire the revenue note in 2020.

The developer (Medtronic, Inc.) agreed to the material requirements to construct a minimum of 1.2 million square feet of office and laboratory space and employ a minimum of 1,500 employees at an average of \$34 per hour within two years of completion of the corporate campus and cause the continuous operation of the facility for five years after issuance of a certificate of occupancy. The developer has complied with all the requirements. The City rebated \$1,647,332 to retire the revenue note in 2020.

CITY OF MOUNDS VIEW

Notes to Required Supplementary Information Year Ended December 31, 2020

General Employees Fund

2020 Changes

Changes in Plan Provisions

- Augmentation for current privatized members was reduced to 2.0% for the period July 1, 2020 through December 31, 2023 and 0.0% after. Augmentation was eliminated for privatizations occurring after June 30, 2020.

Changes in Actuarial Assumptions

- The price inflation assumption was decreased from 2.50% to 2.25%.
- The payroll growth assumption was decreased from 3.25% to 3.00%.
- Assumed salary increase rates were changed as recommended in the June 30, 2019 experience study. The net effect is assumed rates that average 0.25% less than previous rates.
- Assumed rates of retirement were changed as recommended in the June 30, 2019 experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements.
- Assumed rates of termination were changed as recommended in the June 30, 2019 experience study. The new rates are based on service and are generally lower than the previous rates for years 2-5 and slightly higher thereafter.
- Assumed rates of disability were changed as recommended in the June 30, 2019 experience study. The change results in fewer predicted disability retirements for males and females.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 General Mortality table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 disabled annuitant mortality table to the PUB-2010 General/Teacher disabled annuitant mortality table, with adjustments.
- The mortality improvement scale was changed from Scale MP-2018 to Scale MP-2019.
- The assumed spouse age difference was changed from two years older for females to one year older.
- The assumed number of married male new retirees electing the 100% Joint & Survivor option changed from 35% to 45%. The assumed number of married female new retirees electing the 100% Joint & Survivor option changed from 15% to 30%. The corresponding number of married new retirees electing the Life annuity option was adjusted accordingly.

2019 Changes

Changes in Plan Provisions

- The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The State's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

Changes in Actuarial Assumptions

- The mortality projection scale was changed from MP-2017 to MP-2018.

2018 Changes

Changes in Plan Provisions:

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024
- Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018.
- Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Contribution stabilizer provisions were repealed.
- Postretirement benefit increases were changed from 1.00 percent per year with a provision to increase to 2.50 percent upon attainment of 90.00 percent funding ratio to 50.00 percent of the Social Security Cost of Living Adjustment, not less than 1.00 percent and not more than 1.50 percent, beginning January 1, 2019

- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age; does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

Changes in Actuarial Assumptions:

- The mortality projection scale was changed from MP-2015 to MP-2017.
- The assumed benefit increase was changed from 1.00 percent per year through 2044 and 2.50 percent per year thereafter to 1.25 percent per year.

2017 Changes

Changes in Plan Provisions:

- The State's special funding contribution increased from \$6 million to \$16 million.
- The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from \$21,000,000 to \$31,000,000 in calendar years 2019 to 2031. The state's contribution changed from \$16,000,000 to \$6,000,000 in calendar years 2019 to 2031

Changes in Actuarial Assumptions:

- The Combined Service Annuity (CSA) loads were changed from 0.8 percent for active members and 60 percent for vested and non-vested deferred members. The revised CSA loads are now 0.0 percent for active member liability, 15.0 percent for vested deferred member liability and 3.0 percent for non-vested deferred member liability.
- The assumed post-retirement benefit increase rate was changed from 1.0 percent per year for all years to 1.0 percent per year through 2044 and 2.5 percent per year thereafter.

2016 Changes

Changes in Actuarial Assumptions:

- The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2035 and 2.5% per year thereafter to 1.0% per year for all future years.
- The assumed investment return was changed from 7.9% to 7.5%. The single discount rate was changed from 7.9% to 7.5%.
- Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth, and inflation were decreased by 0.25% to 3.25% for payroll growth and 2.50% for inflation.

2015 Changes

Changes in Plan Provisions:

- On January 1, 2015 the Minneapolis Employees Retirement Fund was merged into the General Employees Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892 million. Upon consolidation, state and employer contributions were revised; the State's contribution of \$6 million, which meets the special funding situation definition, is due September 2015.

Changes in Actuarial Assumptions:

- The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2030 and 2.5% per year thereafter to 1.0% per year through 2035 and 2.5% per year thereafter.

Police and Fire Fund

2020 Changes

Changes in Actuarial Assumptions:

- The mortality projection scale was changed from MP-2018 to MP-2019.

2019 Changes

Changes in Actuarial Assumptions:

- The mortality projection scale was changed from MP-2017 to MP-2018.

2018 Changes

Changes in Plan Provisions:

- Postretirement benefit increases were changed to 1.00 percent for all years, with no trigger.

- An end date of July 1, 2048 was added to the existing \$9.0 million state contribution.
- New annual state aid will equal \$4.5 million in fiscal years 2019 and 2020, and \$9.0 million thereafter until the plan reaches 100 percent funding, or July 1, 2048, if earlier.
- Member contributions were changed from 10.80 percent to 11.30 percent of pay, effective January 1, 2019 and 11.80 percent of pay, effective January 1, 2020.
- Employer contributions were changed from 16.20 percent to 16.95 percent of pay, effective January 1, 2019 and 17.70 percent of pay, effective January 1, 2020.
- Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018.
- Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

Changes in Actuarial Assumptions:

- The mortality projection scale was changed from MP-2016 to MP-2017.

2017 Changes

Changes in Actuarial Assumptions:

- Assumed salary increases were changed as recommended in the June 30, 2016 experience study. The net effect is proposed rates that average 0.34 percent lower than the previous rates.
- Assumed rates of retirement were changed, resulting in fewer retirements.
- The Combined Service Annuity (CSA) load was 30 percent for vested and non-vested deferred members. The CSA has been changed to 33 percent for vested members and 2 percent for non-vested members.
- The base mortality table for healthy annuitants was changed from the RP-2000 fully generational table to the RP-2014 fully generational table (with a base year of 2006), with male rates adjusted by a factor of 0.96. The mortality improvement scale was changed from Scale AA to Scale MP-2016. The base mortality table for disabled annuitants was changed from the RP-2000 disabled mortality table to the mortality tables assumed for healthy retirees.
- Assumed termination rates were decreased to 3.0 percent for the first three years of service. Rates beyond the select period of three years were adjusted, resulting in more expected terminations overall.
- Assumed percentage of married female members was decreased from 65 percent to 60 percent.
- Assumed age difference was changed from separate assumptions for male members (wives assumed to be three years younger) and female members (husbands assumed to be four years older) to the assumption that males are two years older than females.
- The assumed percentage of female members electing Joint and Survivor annuities was increased.
- The assumed post-retirement benefit increase rate was changed from 1.00 percent for all years to 1.00 percent per year through 2064 and 2.50 percent thereafter.
- The Single Discount Rate was changed from 5.60 percent per annum to 7.50 percent per annum.

2016 Changes

Changes in Actuarial Assumptions:

- The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2037 and 2.5% thereafter to 1.0% per year for all future years.
- The assumed investment return was changed from 7.9% to 7.5%.
- The single discount rate changed from 7.9% to 5.6%.
- The assumed future salary increases, payroll growth, and inflation were decreased by 0.25% to 3.25% for payroll growth and 2.50% for inflation.

2015 Changes

Changes in Plan Provisions:

- The post-retirement benefit increase to be paid after attainment of the 90% funding threshold was changed, from inflation up to 2.5%, to a fixed rate of 2.5%.

Changes in Actuarial Assumptions:

- The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2030 and 2.5% per year thereafter to 1.0% per year through 2037 and 2.5% per year thereafter.

THIS PAGE LEFT BLANK INTENTIONALLY

NONMAJOR SPECIAL REVENUE FUNDS

Nonmajor Special Revenue Funds are used to account for the proceeds of special revenue sources that are legally restricted to expenditures for particular purposes. The City maintained the following Nonmajor Special Revenue Funds:

Cable Television Fund – accounts for franchise taxes for services provided over the cable system and is restricted by the franchise agreement to the operation of the North Suburban Cable Commission and to local public service broadcasting.

Police Forfeiture Fund – accounts for usage of funds acquired under the federal and state Forfeiture/Equitable Sharing Program.

Community Center Fund – accounts for the operation of the City’s community center.

Lakeside Park Fund – accounts for the operation of a park under a cooperative agreement with the city of Spring Lake Park.

Recycling Grant Fund – accounts for a grant from Ramsey County to operate a recycling program within the City.

Tax Increment Financing District No. 3 – This fund has been statutorily decertified and no longer has the authority to collect tax increments but remains for the purpose of holding land held for resale purchased with tax increments from this district.

Tax Increment Financing District No. 6 – This fund accounts for tax increments collected from a housing project within the district that are used to retire the developer note.

NONMAJOR CAPITAL PROJECTS FUNDS

Nonmajor Capital Project Funds are used to account for the acquisition and construction of major capital facilities and capital equipment other than those financed by Proprietary Funds.

Park Dedication Fund – This fund accounts for park-land dedication funds paid when a major subdivision is initiated and will be used for future park improvements.

Special Projects Fund – This fund finances the construction of government buildings, park improvements, and some transportation projects, except any accounted for in the Proprietary Funds. The main source of funds has been periodic transfers of surpluses from the General Fund.

(1) Source: Ramsey County

(2) The City's market value tax rate is applied against a different base and thus is not included in the direct and overlapping rate total.

Note: Overlapping rates are those of local and county governments that apply to property owners within the City. Not all overlapping rates apply to all City property owners; for example, although the county property tax rates apply to all City property owners, Other Taxing Jurisdictions rates apply only to those property owners whose property is located within the jurisdiction boundaries.

Total direct and overlapping debt			<u><u>\$ 43,330,724</u></u>

Source: Ramsey County

Note: Overlapping debt was not available for Year-ended 12-31-2020.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Mounds View. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) The percentage of overlapping debt applicable are based upon percentage of tax capacity to the total.
